Fresher

PROJECTS

Food Delivery Web App. In my 6th semester i Built a Food Delivery Web App project by using MongoDB ExpressJS ReactJS NodeJS and Tailwind CSS and with the help of more packages.

E-Learning Management System. In my 5th semester i Built a E-Learning Mangaement system project by using HTML, CSS, JAVASCRIPT, MySQL and PHP for Backend. I didn't host it online but my teachers appricated it. ([You will see all codes here!](#))

Short Project. I build many small projects to enhance my skills. In my personal PC i build many cool projects like Calculator, News App, Book Store, Stop Watch, and many more.
